Brenna

Irrigation Pvt. Ltd.

Since 2013

Brenna Irrigation Pvt. Ltd. specialize in designing and manufacturing cutting-edge irrigation systems tailored to meet the diverse needs of farmers and agricultural businesses. Our mission is simple: to help you maximize productivity, conserve resources, and cultivate a sustainable future.

We have grown into a trusted name in the irrigation industry. With a commitment to quality, innovation, and sustainability, we deliver products that empower farmers and transform agricultural landscapes.

Key Highlights:

- Expertise in drip irrigation systems, sprinklers, drippers, and piping solutions.
- A dedicated team of engineers, agronomists, and customer support professionals.
- Focused on reducing water wastage and enhancing crop yields.

Mission

To revolutionize irrigation by providing innovative, eco-friendly solutions that drive agricultural success and water conservation

Key Highlight

Expertise in drip irrigation systems, sprinklers, drippers, and piping solutions. Focused on reducing water wastage and enhancing crop yields.

Vision

To become a global leader in sustainable irrigation solutions, enabling farmers everywhere to grow more with less.

Drip irrigation Equipement Manufacturer

WHY US

Brenna Irrigation Pvt. Ltd. empower Farmers with Innovation and Reliability. We Redefine Irrigation with Precision and Expertise. We have provided smart solutions for sustainable growth. Your Partner in Water Efficiency and Agricultural Success.

Discover how we can help you achieve higher productivity and sustainable farming.

Innovative Solution

Products designed using the latest technology.

Quality Assurance

Built to withstand tough agricultural conditions.

Sustainability Focus

Reducing environmental impact through water-saving designs.

Partner In Growth

Your Partner In Water Efficiency and Agricultural Success.

Our Products

Discover our wide range of innovative irrigation products designed to maximize efficiency and support sustainable farming practices. From advanced drip irrigation systems to durable pipes and precision drippers, our solutions are crafted to meet the diverse needs of modern agriculture.

Brenna Irrigation is commitment to quality and reliability, we help farmers save water, enhance productivity, and achieve better yields.

PVC PIPE

HDPE PIPE

**LLDPE PLAIN
LATERAL PIPE**

**EMITTING PIPE
(ROUND)**

**EMITTING PIPE
(FLAT)**

**DRIP IRRIGATION
SYSTEM**

Product Information.

PVC PIPE

Lightweight, Strong & Built to last

Our **PVC Pipes** are engineered to provide efficient water conveyance solutions for modern agriculture. Manufactured using premium-grade materials, these pipes are lightweight, durable, and resistant to chemicals and corrosion.

Reliable and Resilient

Our **HDPE Pipe** made from high-density polyethylene, our HDPE pipes are ideal for high-pressure water supply systems. These pipes offer excellent flexibility, UV resistance, and long-term durability.

HDPE PIPE

**LLDPE PLAIN
LATERAL PIPE**

Precision For Modern India

Our **Lateral Pipes** Our LLDPE Plain Lateral 32 MM Pipes are designed to ensure precise water distribution in irrigation systems. These pipes offer flexibility, strength, and resistance to UV radiation, making them a reliable choice for agricultural applications.

Product Information.

Precise Water Delivery Made Simple

Designed for high-performance drip irrigation systems, our Emitting Pipes (Round) ensure uniform water delivery to each plant. These pipes are ideal for conserving water while promoting healthy crop growth.

Optimal Water Distribution

Our **Flat Emitting Pipes** are engineered to provide consistent water distribution, ensuring optimal hydration for plants. These pipes are highly durable and designed to perform in a wide range of agricultural conditions.

Revolutionize Your Farming

Our **Drip Irrigation System** is designed to deliver water directly to the root zone of plants with precision and efficiency. This method minimizes water wastage, reduces evaporation, and ensures optimal hydration for every plant.

Benefits

By Using Our Drip Irrigation Systems

Save Water

Save Energy

Save Fertilizer

More Crop

Government Help

Save Labour Expense

We are here to help,
you when it comes to take the Government Subsidy for this.

Find the Perfect Solution for Your Farm

Not sure which product suits your needs?
Our experts are here to guide you.
